Project 3 Aussie Slang Translator

Macallister Statham Jose Guaraco

Concept/ Research

Concept

The concept of our final project is to create a fun experience where the audience can learn about aussie slang words in a unique way. Since Jose is American (well actually Venezuelan) and I am Australian, we decided the idea would be a good opportunity to connect our backgrounds in a fun, light educational way!

Design

Initially, we aim to create an interactive web experience using html and css. Users will navigate the site with a map of australia. Within the map, there will be icons to click on and you can translate them into aussie slang terms for that particular icon. This will be a fun thing as users will try to guess the term or what it means before clicking. We thought that we could go both ways as well and do American slang terms, but we thought that having a central focus for the website was more critical for users, so we wanted to stick with just the australian theme.

Final Website Objective

The final website audience are people interesting in travelling or learning about unique australian slang. I want the audience to be entertained in way light and fun way, since australian slang is fun! Hopefully the audience will be educated, entertained, and enjoy their experience! For our idea, I feel that the most effective to display would be through an interactive website. We plan to follow our timeline layed out in the next slide. In terms of the division of labor, I will write down all slang terms and their meanings and how they used in a sentence. We will split the icon designs in half. Jose will put together the html files, with some critique from myself.

Timeline

IML 300 Final

4/10

Mockups and wireframes.

Write all the body text, and finalize all the slang words and main purpose of the site.

4/17

Preliminary design.

Assets and illustrations.

Start building HTML and CSS.

Try learning JavaScript.

4/24

Working draft.

Talk over issues with Eric.

Perfect details.

3/1

Final Website

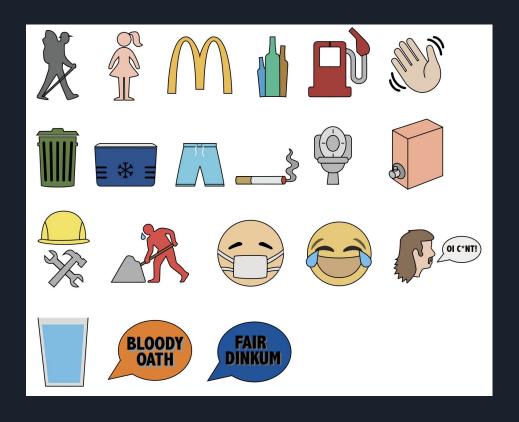

Slang words/terms

We had a way bigger list, but cut it down!

- Bushwalk (noun) A hike. "Let's go for a bushwalk."
- 2. Sheila girl/woman. "She was a fine looking sheila."
- 3. Maccas McDonald's. "You wanna go for a maccas run?"
